

Express Stor

STORAGE SOLUTIONS FOR ANY APPLICATION

Express Stor 1025

(Up to 2.5TBs RAID 0, 2.25TBs RAID 5–Usable,
or 2.0TBs RAID 5 With Global Hot Spare)

EASIER

- *Windows 2003 plug and play NAS that's easy to install, use and administer*
- *Optional high availability data synchronization for disaster recovery*

SMARTER

- *Cross platform data sharing from any network workstation – PC, MAC, and Linux/Unix*
- *Scalable storage capacity with RAID expansion units*
- *Superior data protection with innovative RAID technology*

SAFER

- *Enterprise-class antivirus protection*
- *Embedded environmental monitoring ensures non-stop operation*
- *Best of breed network security integration, file/folder/share and user level security, disk quota allocation and access control list (ACL)*

FASTER

- *Dual Gigabit Ethernet with fail-over and load balancing features offer uninterrupted and robust access*
- *Journaling file system for faster recovery and data integrity*
- *Internal hardware RAID controller capable of 400 MB/Sec read throughput*

High Performance Network Storage

◆ High Reliability ◆ Cost Effective

Application Examples:

- ◆ Replication and disaster recovery – automated with optional software solution
- ◆ Disk-to-disk-to-tape backup
- ◆ Cross platform, remote access – ideal for remote locations or departmental critical data storage
- ◆ Video editing and video-on-demand
- ◆ Pre-press – cross platform data sharing
- ◆ Security and surveillance – video storage
- ◆ Server consolidation
- ◆ Optional email archiving solution
- ◆ Optional optical media support for compliance

Features & Benefits:

- ◆ On-board RAID controller supports RAID 0, 1 & 5, and multiple or simultaneous RAID groups
- ◆ Hot swap disk, redundant hot swap power supplies and hot swap fans
- ◆ Global RAID hot spare
- ◆ RAID 5 hot expansion – expands RAID sets with no downtime
- ◆ Dual 10/100/1000 Gigabit Ethernet with teaming
- ◆ Dual LVD 320 SCSI supports expansion RAID, tape or optical
- ◆ Journaling file system for faster recovery and data integrity
- ◆ Integrated power management with "smart signaling" UPS systems
- ◆ Embedded environmental monitoring – ensures non-stop operation
- ◆ Reduced management – easy to use web based administration
- ◆ File/Folder/Share and User level security
- ◆ Supports access control list and user disk quota control
- ◆ Supports Microsoft Windows 95/98/ME/NT/2000/XP, Active Directory, Unix, FreeBSD, Linux, Unix NIS, MAC OS
- ◆ Embedded enterprise-class antivirus software for realtime virus scanning
- ◆ Microsoft Windows 2003 Storage Server features shadow copy, VFS, and FRS
